1. Dr. Misfeldt reported on the COACH survey. Part of this presentation was made at the Council of Chairs. The survey was completed in February of 2016. The Faculty Forward Survey was has been taken 3x before and the current data cannot be compared directly to that survey. However, going forward, the format of the COACH survey will be repeated (spring of 2018).

2. Kirsten Malinee posted the COACH presentation on the Intranet. The summary of the current data is that MU Medicine is on par with other schools of similar size, that have similar environments (academic health centers, public hospitals). The limitation of the survey is that Dr. Misfeldt cannot provide school or college level data to protect anonymity. The campus climate survey will be released September 12, 2017.

3. The Medical School Curriculum Committee requests the SOM faculty to approve expansion of the committee to include members from the Springfield Clinical Campus. The description of the changes is as follows:

   To improve membership and leadership continuity, the Curriculum Board proposed changes in the Faculty Bylaws to increase the term limit of Curriculum Board members from 3 years to 4 years and add a role of chair emeritus which would allow the outgoing chair to continue to assist the new chair and vice chair in their leadership positions of the Board. The proposed changes also adds representation from the Springfield Clinical Campus on the Curriculum Board by adding 1 faculty and 1 student representative.

   We need 2/3 of the 654 ranked faculty members to vote. Kristen Malinee will aid the FAC to coordinate the voting via Qualtrics.

4. The next FAC meeting will be held on Monday, November 13, 2017 at 5:30 p.m. in M243. The next All-Faculty SOM meeting will be in December.
